

Eng. Faris Abdul Raheem

Software Team Lead

An experienced team leader with a proven track record in managing cross-functional teams, driving code review, crafting software design and architecture with a comprehensive mastery of multiple software platforms such as JavaScript, Python, Node.js, Nestjs, .Net, Angular, React, Java, MS SQL, CouchDB, Azure, AWS, and MEAN Stack.

WORK EXPERIENCE

[6+ Years]

LEAD SOFTWARE ENGINEER

Lease Works, US Based (Hybrid)

12/2023 – 03/2023

- **Direct and oversee a team** of 10+ Salesforce Developers and QA in creating complex applications for Airlines leasing industry
- Provide technical leadership by devising **technical designs and mentoring junior developers**, fostering skill development and task completion within the team
- Utilize expertise in Apex, JavaScript, Python, Aura, and LWC within the Salesforce ecosystem to tackle complex challenges and deliver innovative solutions to meet business needs
- Provided strong technical and functional expertise to **gather end to end business requirements** and translates them into Salesforce technical functionalities

TEAM LEAD

SORICE SOLUTIONS, US Clients (Hybrid)

01/2023 – 12/2023

- **Leading and managing** a team of 7+ full stack developers and helping them **solving technical blockers** and interacting with the client
- **Handling the scrum calls** and assigning the team goals, and tasks, reviewing time estimates, defining tasks, scheduling milestones, and giving technical clarifications for problems
- Solving complex technical problems and **performing code reviews** for applications build using Nestjs, Angular, and Native script and implementing key coding practices and agile standards
- Handling the **production deployment** through CI/CD pipelines, Kubernetes cluster, and migrations to carefully check whether the production checklist is followed and accurately tested

L3 SENIOR ENGINEER

IMPORT.IO, London Based(Hybrid)

12/2021 – 12/2022

- **Managing team of 20+** L2 support engineers and helping them in **solving challenging technical blockers** on anti-captcha, proxy issues, and complex web data extraction process
- Architected and built multiple full-stack web dashboards using **ReactJS**, Nodejs, SQL, and AWS EC2. This automated dashboard helped in solving the tickets and increasing the **KPIs by 10%**
- Developed a **Chrome extension** for the triaging team to quickly identify, automate, and get the correct destination of files for mapping in the ticket. Thus, decreasing the **triaging time by 25%**
- Creating **web crawlers, data extractors, and web automation** using JavaScript, python, puppeteer, headless browsers, and AWS S3 buckets to scrape high-quality e-commerce data

SENIOR SYSTEM ENGINEER – R&D

INFOSYS LIMITED, Mysore, India

11/2018 – 12/2021

- Administered and developed 16 POCs in the team by researching and collaborating with different clients to solve their problems and improving various projects ranging through multiple tech stacks – Python, **Web Extensions**, MEANJS, React, .NET, Angular and NodeJS
- Enhanced the security of applications by using **Keycloak IAM** in different tech stacks- MEANJS, Node, Angular, Airflow and Python

- Architected and developed an Entire **Full Stack Application** that helps in the Self-Healing of Automation Test Scripts by AI in Selenium Java using **JavaScript, Angular, NodeJS**, Java, and Couch DB
- Engineered a groundbreaking custom IntelliSense solution within Eclipse, leveraging AI tools such as TensorFlow, Keras, and the GPT3 model in Java, resulting in 25% reduction in test completion time
- Innovated a custom .NET Profiler to instrument the code by open tracing using Datadog, C++ profiler, .NET, APM, and multithreaded logging mechanism
- Implemented DevOps CI/CD strategy to the entire team projects using Jenkins pipeline, Jira, and Selenium, improved project release time by 30%

Free Lance Developer

10/2016 – 06/2018

TECHNICAL SKILLS

Languages

JavaScript, Python, TypeScript, C#, SQL, Apex, HTML 5, CSS3, Java, JSON, PHP, XML, C++, C

Framework and Libraries

Angular, Nestjs, NodeJS, MEANJS, ReactJS, ASP .NET, NET Core, Angular JS, Express, Flask, Chrome Extension, Aura, LWC, Puppeteer, Entity Framework, Bootstrap, jQuery

Database

MSSQL, PostgreSQL, CouchDB, Mongo DB, Elastic Search

Testing Tools

Nunit, Xunit, mocha, Selenium Test Automation (Java and Python), TestNG, Protractor, Postman

DevOps Tools

Docker, Git, Gitlab, TFS, GitHub, JIRA, Datadog, Jenkins, Google Cloud, Maven, Cloud, Azure Cloud, ELK, AWS

Familiar With

Keycloak IAM, OAUTH 2.0, IIS deployment, Node-Red, Apache Airflow, Computer Vision, Keras, TensorFlow, AWS EC2, Spring Boot, Swagger, Native Script, Sales Force CRM

EDUCATION

MBA IN FINANCIAL MANAGEMENT

University of Madras

07/2020 – 06/2022

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE AND ENGINEERING

University of Calicut

05/2014 – 05/2018

AWARDS AND ACHIEVEMENTS

- Awarded for Good Performance at Import.io
- **Award for being Most Valuable Player** at Infosys
- **Awarded for the Creation of POC** on Chrome Extension at Infosys
- Infosys Certified .NET Core and Python Developer
- **Hackathon Winner** a Hack for India 2017 v3.0
- Microsoft Student Partner (2015-2017)
